**Thinking Maps
Visual Tools that Get Results**

Thinking Maps® : A Language for Leadership...

is designed for school leadership teams to insure deeper levels of thinking and improved levels of student achievement. The purpose of Thinking Maps: A Language for Leadership is to use Thinking Maps® as a common visual language in your learning organization for applying and improving thinking processes, communicating ideas and points of view, generating sustainable solutions, and assessing progress over time.

Participants in the training will:

- ◆ Review Thinking Maps® and how they can be applied for personal use in areas such as administrative decision-making and data analysis.
- ◆ Learn how successful Thinking Maps® implementation looks and sounds for campus/district administrators, teachers and students.
- ◆ Learn effective strategies that administrators have used to sustain and deepen implementation of Thinking Maps® at the campus/district level.
- ◆ Review and learn to utilize the Thinking Maps® Implementation Rubric to identify current levels and guide growth to higher levels of Thinking Maps® implementation for administrators, teachers, students and schools.

If you are interested in bringing a team to this training, please complete the registration form and fax or mail it to our office in Cary, NC.
