Thinking Maps  
A Language for Learning

## The Thinking Maps Training of Trainers (TOT) Recertification...

Thinking Maps Inc. has new updated materials for both teachers and trained trainers. The Language for Learning text is the first new edition of Thinking Maps in 12 years. During those years the maps have not changed, but we have changed how we train teachers, Pre-K through 12th grade. The new Language for Learning text addresses:

- ◆ Effective instruction and how Thinking Maps can help add depth and complexity to teaching and learning
- ◆ How maps are not only different from graphic organizers, but that they must also be used differently in the classroom
- ◆ Instructional strategies that help teachers differentiate for English Language Learners, students of all ability levels and all learning styles
- ◆ Map applications for specific grade levels and content areas
- ◆ Moving teachers to a greater depth of understanding about each map and multiple map applications
- ◆ Professional development and the importance of follow-up
