

TRAINING OF TRAINERS

WORKSHOP DESCRIPTION: Thinking Maps® were developed as a language for learning in 1988 by Dr. David Hyerle. These eight maps are used by teachers and students K - 12 for reading comprehension, writing process, problem solving, and improving thinking skills. Professional development focuses on the whole school so that students have continuous use of these tools over multiple years. Participants will build their own capacity with Thinking Maps and will then be able to facilitate training and implementation back at their sites. Ideas for implementation and follow-up will be provided.

PRESENTER: Sarah McNeil

ATTENDEES: Administrators, classroom teachers, coaches, department chairs, grade level leads
