

Everything your school/district needs to launch or reignite Thinking Maps

YEAR ONE

IN EVERY CLASSROOM

A Teacher's Guide for every teacher:

The shared reference behind every Map introduced, in the hands of every teacher.

A Coach's Guide for the coaches and the principal:

Leadership and coaches work together toward mastery.

SUPPORT FOR YOUR STAFF

Initial Training & Foundational Learning:

Led by a Thinking Maps Learning Facilitator. Establishes a common understanding of Thinking Maps as a critical thinking tool.

Training of Thinking Maps Coaches:

Two educators attend. They can be instructional coaches out of the classroom or teacher leaders still teaching; either works. Both leave with a coaching toolkit built to fit the unique instructional needs and schedule of any school.

Coaching Check-Ins:

One at each step of your Plan of Action. 90 minutes each, virtual.

Leadership Workshops:

- The power and purpose of Thinking Maps
- Leading and sustaining implementation
- Facilitating collaboration and decision-making
- A leadership toolset for data and goal-setting

THINKING MAPS LEARNING CLOUD | TMLC

Developing Student Ownership and Map Expertise:

The asynchronous Launch course that supports teachers as they introduce the Maps to students.

Map Gallery:

Thousands of student and teacher examples.

Map Builder software:

Teachers and students build Maps digitally.

Student-facing slide decks:

Available for both primary and upper elementary students. A daily lesson already built for every week: the thought process, its academic language, and the Map.

The Learning Nook:

Current topics in education, how the Maps connect, and lessons to try tomorrow.

AI for Experts:

Ideas for unit plans, lessons, assignments, writing prompts and interventions.

No one implements alone. Support is scheduled at every step of the plan.
